

Criteria	Description for INTL 601 (PhD Level)	Description for INTL 511 (MA Level)	Points (Out of 20)
Knowledge and Understanding	Demonstrates a comprehensive understanding of key concepts and theories; accurately references readings, with critical engagement and application.	Demonstrates a solid understanding of key concepts and theories; accurately references readings and applies them effectively.	6
Analysis and Critical Thinking	Provides deep analysis, demonstrating critical engagement with theoretical material, including identifying nuances, complexities, and scholarly debates.	Provides coherent analysis, demonstrating basic engagement with theoretical material; identifies contrasts and implications where appropriate.	6
Application	Effectively applies theories to empirical examples or complex scenarios, integrating quotes and providing in-depth insights into theoretical applications.	Applies theories to scenarios or examples in a straightforward manner; links theoretical concepts to practical issues with less emphasis on complexity.	4
Organization and Clarity	Clearly organizes ideas with sophisticated argument structure and logical flow; maintains coherence across complex analyses and extended essays.	Organizes ideas clearly with logical flow; maintains coherence across essays and short answers in a structured manner.	2
Reflection and Synthesis	Synthesizes perspectives to offer critical insights, connecting theoretical discussions to broader contexts and highlighting original contributions.	Reflects on theoretical discussions, connecting them to broader contexts; offers insights that demonstrate understanding without requiring original contributions.	2
